Materials

- Sheet of baking paper
- 2 rice crackers or other
- 2 pieces of thick wholemeal bread (appx 3 cm x 6 cm x 1 cm)
- Heaped tablespoon of hummus
- Butter or margarine
- Spoon
- Butter knife

Model A

- Break rice cracker in half.
- Place halves together with edges touching.
- Slide the pieces in opposite directions past each other. The broken edges should rub.

Model B

- Place cracker halves back together on top of hummus
- Gently push down on the outer edge of both sides (opposite break), moving slightly outward.

Model C

- Place two pieces of bread on hummus with narrow edges touching.
- Slide the bread pieces toward each other.

Model D

- Spread butter thickly on the remaining rice cracker.
- Place the cracker and piece of bread on hummus with edges touching.
- Slide them toward each other, angling the edge of the cracker so that it goes into the hummus under the bread.
