

Measure the globules

Measure the length and width of globules A, B, C and D. Write your results in the table.

Globule	Length	Width
A		
B		
C		
D		

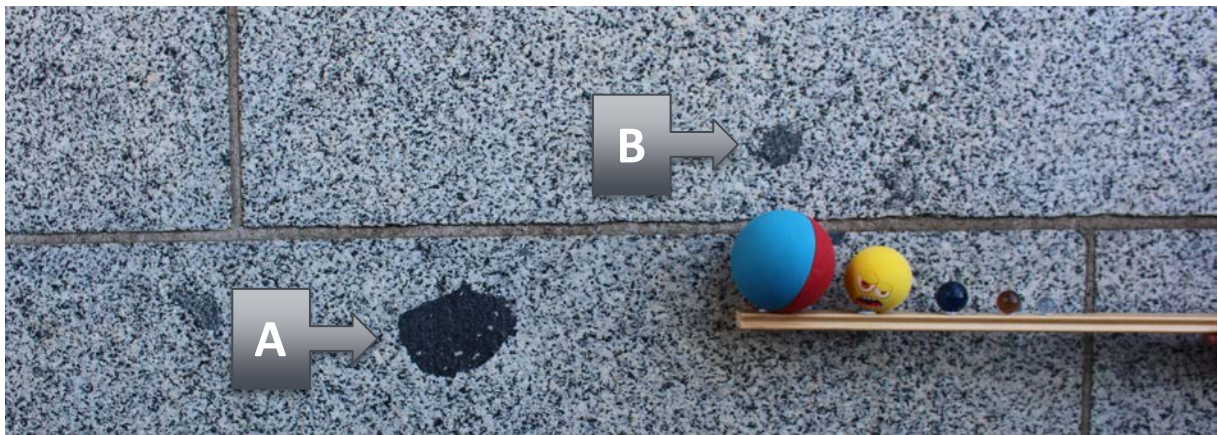

Which globule is longest? Circle it with a coloured pencil or pen.

Compare the sizes

- Which globule is bigger – A or B?
- What colour of ball is closest in size to globule A?
- What colour of ball is closest in size to globule B?
