

This activity encourages IT use. Students are required to demonstrate how they refine their search by demonstrating key words and concepts. There are many useful sites. Some are listed below:

<http://www.wasalt.com.au/history.html>

http://www.salt.org.il/frame_prod.html

<http://www.saltinstitute.org/>

Students can then share their findings and construct a PMI (Plus, Minus & Interesting) chart.
