

Inspiring Senior School Students in NSW

Help us grow this successful program which inspires the next generation of resource industry professionals

AusEarthEd commenced supporting NSW Earth and Environmental Science (EES) students in 2020. This program was a response to the limited support for students of EES who will, potentially, enter careers in fields such as geology, environmental science and mining engineering. The program has been an overwhelming success, with demand now outstripping resourcing. We are seeking sponsorship to increase our engagement and support of Year 11 and 12 EES students and educators.

AusEarthEd NSW

3,121

students engaged in hands-on incursions and excursions

1,140

educators supported through incursions, mentoring and professional development

181

customised teaching resources created

(NSW data 2020-2022)

Resourced by

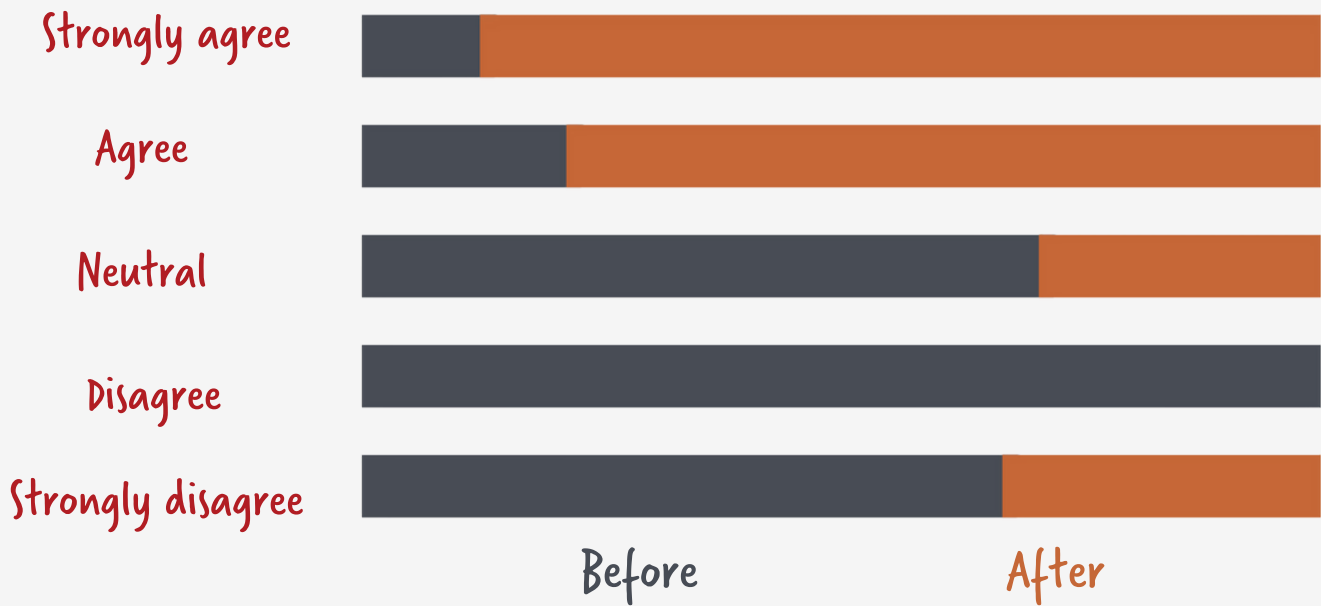

Inspiring Senior School Students in NSW

Join us in expanding EEs support across New South Wales

Responses from students before and after engagement to the statement:
'Considering the benefits and costs associated with mining, it is worthwhile to pursue
mining in Australia'.

Annual Support Categories

Major	\$100,000+
Platinum	\$15,000+
Gold	\$8,000+
Silver	\$4,000+
Bronze	\$2,000+
